

**The Ohio Council of Behavioral
Health & Family Services Providers**

ABOUT THE OHIO COUNCIL

The Ohio Council is a statewide trade association representing more than 160 private and not-for-profit organizations providing community-based mental health, alcohol and other drug addiction treatment and family services throughout Ohio. The Ohio Council was established in 1979 and is governed by a 15 member Board of Trustees, composed of member organization chief executives. Elected by the membership, the Board provides strategic direction for the Council and leadership to the organization's committee structure. The Ohio Council is funded primarily through a dues assessment of all member organizations, but also generates revenue through its various products and services and membership training events.

Affiliate Membership:

As an affiliate member – an individual, firm or company that offers goods and services to the behavioral health & family services industry, but is not eligible for full membership in the Ohio Council – you will have many opportunities to become more involved with the Ohio Council. This is an excellent opportunity for you to promote your company and its products & services to Ohio Council provider organizations.

Affiliate members could include IT vendors, law firms, accounting firms, health insurance companies, pharmaceutical companies, business service/supply vendors, and consulting firms.

jmiller@coresolutionsinc.com

Core Solutions began in 1999, focusing on a mission to improve outcomes for those affected by behavioral health, SUD and IDD challenges through innovative technology.

The Core Cx360 Platform, our highly configurable solution, enables organizations to be flexible and responsive to changing regulations and innovations in healthcare. Organizations and clinicians can also maintain fidelity to any evidence-based practice they implement using the workflow designer and process tracker. To lessen provider burden, we've expanded client engagement and self-care tools by utilizing AI for predictive analytics and more sophisticated population health analysis. Cx360 is highly interoperable and promotes real-time integration and data sharing among behavioral health, care management organizations, medical providers, and other members of the Care Team, supporting care coordination across the continuum—a significant focus in healthcare today and tomorrow.
